DETAILED ACTION

Claims 1-9 and 11-89 are pending in this application.

Action Summary

1. Examiner acknowledges the removal of the hyperlinks and/or other form of browser-executable code; therefore the objection of the specification is withdrawn.
2. The rejection of claims 82-89 under 35 U.S.C. 112, first paragraph is hereby withdrawn as applicant has removed the phrase "or preventing" from the claim.

Drawings

3. The drawings filed on April 2, 2001 are acceptable subject to correction of the informalities indicated on the attached "Notice of Draftsperson's Patent Drawing Review," PTO-948. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

Statement of Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance:

The claims are allowable over the cited prior art because the prior art does not teach, disclose nor make obvious an adhesive patch comprising a flexible backing having a front side and a back side and a therapeutic formulation, wherein a portion of the backing is treated with a sizing agent and the sizing agent has a surface energy of about 20 dynes/cm² to about 65 dynes/cm². The closest prior art is the applicant's own

work U.S. Patent No. 6,495,158 B1 and 6,348,212. These patents teach an adhesive patch which contains a flexible backing onto which a sizing agent has been applied.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
